TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frameworks/Libraries:** React.js, jQuery, Bootstrap, Tailwind CSS
- **Tools:** Git/GitHub, Lighthouse
- **Concepts:** Responsive Design, Web Performance Optimization

EXPERIENCE

Web Developer | Hi-Techsters IT Services Pvt Ltd | Hyderabad, India

Aug 2023 – Oct 2024

- Developed 5+ responsive websites with Tailwind CSS & Bootstrap, improving mobile load speed by 40% using lazy loading.
- Collaborated with backend developers & designers, ensuring seamless data flow and UI consistency.
- Optimized Lighthouse scores from 60 to 90+ by reducing render-blocking resources and compressing assets.
- Conducted client meetings to gather feedback, leading to a 30% reduction in revision requests.
- I have actively collaborated with the SEO team to pinpoint and address website issues, successfully resolving 90% of them. I took the initiative to enhance search engine visibility by adding critical meta content.

PROJECTS

[PiDatacenters](#) (PHP, JavaScript, Bootstrap)

- Pi Datacenters India's first Greenfield Uptime TIER IV Certified Datacenter & Cloud organization
- Revamped 10+ legacy web pages using Bootstrap & JS, reducing bounce rate by 25%.
- Optimized form validation & submission handling, decreasing failed submissions by 30%.
- Improved page load time by 2s by deferring non-critical JS and compressing images.

[Pi Cloud](#) (Laravel, Tailwind CSS)

- Pi Cloud.ai is a key service that combines artificial intelligence and cloud computing.
- Built **interactive web pages** with Laravel & Tailwind CSS, enhancing user engagement by **20%**.
- Implemented **caching strategies**, reducing server response time by **35%**.
- Cooperated with designers to implement **UI/UX improvements**, increasing client satisfaction.
